War! so much injustice and so many lies  
Now people get togedda for love and unity is our only  
way

Everybody sing more peace  
Inna di world an all around every nation all human sing  
more peace  
People raise your voices wi got no time sing again  
more peace  
Everywhere wi see di people are dyin an cryin fa more  
peace  
But there is nothing but love

Demasiadas guerras todos los anos que han pasado  
Las millones de personas que han sufrido y que han  
muerto  
Yo no entiendo a los politicos que piensan  
Que con violencia se arregia la indiferencia  
Se sienten poderosos con ejercitos humanos  
Listos para terminar con la vielencia con mis hermanos  
Leo a diario el diario mientras camino por el barrio  
Y triste me doy cuenta que para la paz no hay mas  
espicio

I tek a look inna di piapa an mi wonda  
Hardliner politics are gettin stronga  
It seems like love an humanity go unda  
But I know soon righteousness shall overcome yah  
Dem cyan't hide dem lies anymore  
Di world know di reason wa dem really fight for  
But wi seh no wi don't accept dis no more  
Wi want no economy dat is founded on war

Everybody sing more peace  
Inna di world an all around every nation all human sing  
more peace  
People raise your voices wi got no time sing again  
more peace  
Everywhere wi see di people are dyin an cryin fa more  
peace  
But there is nothing but love

Everyday wi searchin for the road to peace  
Yow wha wi need is only one thing an we gonna find it  
One day wi'll see our love increase  
And by lovin one anodda mankind a reach it  
There's no time for no moaning an wailing  
Because so many likkle things dem a watin  
Things of solidarity and of sharin are pavin our way  
Wi walkin for freedom

More war less opportunity  
We are creating chances with music and unity  
One by one step by step song by song  
We've been waiting to long

Everybody sing more peace  
Inna di world an all around every nation all human sing  
more peace  
People raise your voices wi got no time sing again  
more peace  
Everywhere wi see di people are dyin an cryin fa more  
peace  
But there is nothing but love

Wir wollen mehr Frieden in den Stadten mehr Frieden  
auf den Straen  
Mehr friedvolle Taten und nicht wertlose Phrasen  
Wir sind bereit um Opfer zu bringen um fur den  
Frieden zu singen  
Durch unsere Lieder Kriegstreiber in die Knie zu  
zwingen  
Keine Krisen keine Kriege wir wollen einen stabilen  
Frieden  
Viel mehr Menschen die sich lieben ohne den Drang zu  
besiegen  
bertrieben gesagt 'ne Welt wo jeder jeden mag  
Zu jeder Zeit an jedem Ort an jedem Tag

Everybody sing more peace  
Inna di world an all around every nation all human sing  
more peace  
People raise your voices wi got no time sing again  
more peace  
Everywhere wi see di people are dyin an cryin fa more  
peace  
But there is nothing but love
