We sorry for so much destruction - mother earth  
Too much pollution - mother earth  
We lose your connection  
And we try to find artificial satisfaction  
Show me your beauty - mother earth  
We know it's our duty - to preserve  
Money can't buy what you're worth  
Mother earth - mother earth - mother earth

Yo mother earth I know you gave birth to me  
Yo mother earth I know you really deserve to be  
praised  
You are to source you are the heart of every one de  
But we're so far away from you a wrong way  
Is what we walk when we forget about you  
People round the world them never worry about you  
But we need you to survive I know  
Got to save you before the wicked man a kill you

Wir tanken Energie  
Jeden Tag Ã¼berall solange wir wollen von dir  
Du gibst uns Kraft fÃ¼r so viel  
Oh Mutter Erde bleib bei uns bleib hier  
Wir tanken Energie  
Meditieren in deiner Stille sind von dir inspiriert  
Mama wir danken dir  
Dank fÃ¼r deine Gaben also Mama bleib bitte hier

We sorry for so much destruction  
Too much pollution  
Mother earth  
We lose your connection  
And we try to find artificial satisfaction  
Show me your beauty  
We know it's our duty - to preserve  
Money can't buy what you're worth  
Mother earth - mother earth - mother earth

Pacha mama no hay nada en este mundo  
Que de tus frutos tu no nos puedas brindar  
Pacha mama el dolor es tan profundo  
Por los habitantes que no te saben respetar

No hay que esperar que esos guevones  
Ensucien el agua y el aire haciendo millones  
No hay que esperar  
Pa mostrar el interes y darle a pacha mama el respeto  
que ella mereze

We sorry for so much destruction  
Too much pollution  
Mother earth  
We lose your connection  
And we try to find artificial satisfaction  
Show me your beauty  
We know it's our duty - to preserve  
Money can't buy what you're worth  
Mother earth - mother earth - mother earth

Wir singen den Song zusammen fÃ¼r Mama Erde  
Denn wir wollen dich niemals vermissen Mama Erde

Kann ich euch mal hÃ¶ren wir singen alle Mama Erde

Und die Nahrung fÃ¼r die Seele auch Mama Erde
