

Culcha Candela "Revolution"

Visit "[Revolution](#)" on MotoLyrics.com

Sittin deh in da city
With millions of people around me
Thinkin about our so called civilized problems
Erase our time and inspiration
All people keep on forgetting to think about
What divides right from wrong

We are conqueror
And we claim our rights back rise and shine
And we are bon fire
We are spreadin di vibe nah commit no crime
Seh you are conqueror
And you enslave mankind for a long long time
And you are bon fire
With your machine and gun but we don't wanna go
further

Take time for your revolution
Excuse no more it's time fi action
Gunshottattatta a buss for to long
Always remember united we strong
Take time for your revolution
Time a di warlord almost done
Nuff a dem a fear di new generation
So we shout it again
United we strong

Some politician that we nah need no longer longer
Dem carry on and play good against bad man badman
And dem a play
Long time too many years fi di most of mankind
Blow dem house and mind
Dem nah care fi di props a di younger
Only care bout power get stronger
Dem a get in position fi di final round
Everybody want wealth and ressource fi di future

Take time for your revolution
Excuse no more it's time fi action
Gunshottattatta a buss for to long
Always remember united we strong
Take time for your revolution

Time a di warlord almost done
Nuff a dem a fear di new generation
So we shout it again
United we strong

Dem been killing lots of innocent children
Dem a spend di million to drop dem bombs
Dem send forces to kill for ressources
Dem don't mind to worship who got what dem want
Blow taliban inna afghanistan
Nine eleven give dem right do done dem friends from
a long
Right now di same man claim back from dem land
Civilians suffer while peace never come
In iraq dem build another vietnam
Kill saddam fi di oil dem a want
Tryin fi win but them can't understand
People don't want this yah bomboclaat babylon
Dem no want no military control
Wanna break free and make dem own rules
Take responsibility for what dem gwaan do
Don't wanna go to no american highschool

Take time for your revolution
Excuse no more it's time fi action
Gunshottattatta a buss for to long
Always remember united we strong
Take time for your revolution
Time a di warlord almost done
Nuff a dem a fear di new generation
So we shout it again
United we strong

After a decade of war amd crime now people it is di
time
To realize and follow di sign now
Hear this rhyme
This is a song fi all mankind
To liberate them hearts and mind now
Never stop trying
Always be aware that we are conqueror
And we a bon fire
