Who got the key to get out of this body
Who got the key to get out this life
Who got the key to get out of this body
Who got the key to get out

I get bored of thisya life am living
Every single day I repeat the same thing
I want more action life and feeling
Something new must begin
Got to bring in motion and some variety
Got to make up me mind cause it's deep like an
ocean
And no society could a ever enchain me
Cause I be any thing that I intent to achieve
And no one could ever invent this but me
Am a creator of my own destiny
On my way of breaking free

Who got the key to get out of this body
Who got the key to get out this life
Who got the key to get out of this body
Who got the key to get out

Tell me where we go which way
Jah jah can say
Listen to your heart and pray
And you know the way
We are walking one way
Help me now
Do you hear what I say

Nod your head a chicken
And release your brain
Cause this is the way that we free our feeling
We movin out of this money made world
Into a brighter day

So many question me want fi get done
So many question fi di answer: one
One love what we live one way we have gone
One world one blood one mount zion
One dream inna heart of each and every human

Want peace and love and a bag of freedom
Nobody lonely united we stand
It's us holding the key in our hand

Who got the key to get out of this body
Who got the key to get out this life
Who got the key to get out of this body
Who got the key to get out

Everyone is searching for love everyone
We wanna feel alright
There is only one solution one way
You have to love your own life
