She came into my life
Like an angel in disguise
I never figured it out
But she knew what it was all about
She never let's me sleep at night
Without hugging me close and tight
She takes away my pains
My dreams are back
All have remained

Chorus:
When all my hopes were gone
When all came crumbling down
She kisses me it's all right
I know that she's the one
When no one understands
The little boy inside this man
She comes to me she takes my hand
I know that she's the one

She never fails to see
What little joy there is in me
She gives me a brand new day with me
His wish she'll always stay
When I feel so alone
With her I'll build my home
She comforts me without a doubt
She has to be the one

Chorus:
When all my hopes were gone
When all came crumbling down
She kisses me it's all right
I know that she's the one
When no one understands
The little boy inside this man
She comes to me she takes my hand
I know that she's the one

Bridge:
And it was long ago that I decided
No one else can take her place forever

Ooh...

She's the one, the one who'll be there for me
I know that she's the one
Who's everything I wish her be

She's the one will always love you
She's the one who will be there for you
Don't let her go you'll never find another one

I know that she's the one

Chorus:

When all my hopes were gone
When all came crumbling down
She kisses me it's all right
I know that she's the one
When no one understands
The little boy inside this man
She comes to me she takes my hand
I know that she's the one
