In mysterious forests, in points of contact  
That's where worlds dead and alive are meeting  
There are places of apparitions situated  
Which will start to surround you

The presence of helpful half-human Hecate  
Who instigates anxiety of dog's creatures  
From night World

Night is alternated whit night  
By the fair constellation from Monday to Tuesday  
The powers of Moon and Mars will merge to one  
Ceremony of the Iron will strike and it will also  
Smelt the strongest human heart

And tones of hard-bearable Sphere  
In thje fourth sequence from planets  
Martical spellbouding is flying through the space  
To subject of destination in the name of Aside's wrath

Words which were changed to forms  
Are under law of the mighty destructive Will now

The movement is directed by sword's blade  
Right to people who don't know principles of Nature

Then...  
And then you are situated  
In my infernal power!
