Deep embedded within  
The urge to disembowel  
To feed on the dead and wear their skin  
Now, your flesh is mine to dissect  
Soon, you lay gutted begging for death  
Death comes crawling  
As I rip your skin  
Ferocious ways to tear your squirming body  
Razorsharp dreams of dread  
Bloodsoaked walls  
As my hunger is fed by your bleeding remains  
You will die  
Stripped of human form  
You will burn  
Lobotomized  
Now, your flesh is mine to dissect  
Soon, you lay gutted begging for death  
You will die  
Stripped of human form  
You will burn  
Lobotomized
