Snapshots, forget me nots,  
When I'm away your all I want, broken up  
Up and down these motorways with thress word I just  
can't say  
[Three words I just can't say]

So heres a love song from me to you,  
A piece of me to hold onto,  
So grab it tight don't let it go,  
The only way to let you know.

I'm coming back to you,  
I'm gonna hold you tight,  
Everynight we're apart,  
It gets me down.

I've been looking threw this shoebox filled with notes  
we used to write,  
I spill my heart for you to night,  
With a pen that's heaven sent, in a book that's velvet  
lined,  
The ink shows the map to our special place  
Where we first met, our hearts would race

Turn the speakers up this song will take you home,  
Don't worry about me baby,  
Turn the speakers up this song will take you home,  
I'm coming home

I'm coming back to you,  
I'm gonna hold you tight,  
Everynight we're apart,  
It gets me down.
