I hide Your word in my heart that I wont sin against You
So my steps and my thoughts are in tune
Are pleasing to You
You have written me a love song
I wanna sing it's melody all day long
Chorus
I will listen to Your Word, Your very words
Taking them to heart them to heart
Because if ever Im in need, then Your advice will be
Written in my heart of hearts
Wonderful things I shall find when You help me to see
The incredible miracle of You speaking to me
So I will take Your words and store them deep inside
Til You consume my very heart my soul my mind
Chorus
Bridge
And how precious is this book that breathes new life?
Far too precious not cherish every line
You have written me a love song
I wanna sing it's melody all day long
Chorus
