Led beyond the walls I know to poverty  
Now I see You gave me what I really need  
I never really knew what You were gonna do but I went  
away  
I couldnt really see how it was gonna be but now Im  
swept away and  
Chorus  
Through the eyes of a child  
In this desolate land  
Ive seen Your spirit run wild and Ive seen the  
Healing in Your hand  
There is power in Your hand  
Howd You know that it was time to draw me close?  
Now I see You gave me what I need the most  
Ive always been the kind to try to bind You in a little box  
Apparently You chose to step and break through the  
lines Ive drawn and  
Chorus  
Bridge  
I know-You worked in me I know  
My faithmy faith did surely grow  
Why You why You had me go  
I know see I was in need

I never really knew what You were gonna do but I went  
away  
I couldnt really see how it was gonna be but now Im  
swept away and  
Chorus
