Sometimes life doesnt last as longas we'd hoped.
Now I dont know how im gonna cope.
I nust Cant see why...
Some people have to die.
Whether you ran a red light
or a drunk driver hit you night,
you're gone nothings gonna bring you back, its all
wrong.
It's so sad you couldn't stay here that long.

I just keep thinking...

Why did it have to be you, how come not them
then i wouldnt have all this to go through,my life got so
dim
we were really close
this just goes to show

Life is too short to fret the litle things that'll come
around,
WOW!
I really cant believe your not here now
Why did it have to be you
i just wish ya knew
how much i truly care about the things we use to do.
all the times i spent with my boo
we could've be hangin

why, why did it
why did it have,
why did it have to be...
you
