Years of prolonged bitterness  
Have worn me down  
I saw this day coming  
I've never felt this sick in my life

Growing mad with suspicion  
Deep down inside it's certain  
I dread the days to come  
This game will end tonight

[chorus]  
For what you did and what you left undone  
You are truly dead to me now

For what you did and what you left undone  
You are truly dead to me now

Just names remain  
Name of true hate  
Your dead heart  
How the hell did I fall in love

Just names remain  
Name of true hate  
Your dead heart  
How the hell did I fall in love

In heartbreaking dreams I kill you and our son  
Defenceless, innocent, hence he dies unborn  
Blind hate paves the way to destruction  
Seals the end of life  
Only shame remains as bloody wounds  
On your lover and his whore

[chorus]

"I could have been a father, raise you as my son  
Of all my mistakes in life, this cannot be undone  
She could have been a mother, love you as our son  
Yet chose to break our trinity, and now all hope is gone"
