Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus,  
Pluto, Neptune  
No boundary in the sky  
A round planet on the solar system, a sphere needs  
rest immediately  
To look for the new excitements, make up your mind to  
go out to travel

Centipede, snail, caterpillar, leaf, beetle, insect, scale,  
everything has it's soul  
Killing is futile

Noises of the city, when you are fed up with them you  
will rush out to go out to travel

Your life tumbles down seven times, fall down eight  
times, turn a misfortune into another  
Stumble but manage to get back on your feet eight  
times  
Wind song, cry song, dance, moon, sun, cry, cogito,  
ergo sum

Real morning, daytime and evening, smell of  
primitiveness, creation and beautiful green  
Let's go out to smell  
Let's go out to travel
