

Painted On Water "Before The Night"

Visit "[Before The Night](#)" on MotoLyrics.com

Hear me calling through the darkness
Piercing through the night
Come your heart know, forget your troubles
Under the starlit sky

You will be by my side soon
Before the night's over
You will rest by my side soon
Before the night's over

Close your eyes and feel my kisses
Like the pale moonlight
Let it all go, your war is over
Give your breath to the night

You will be by my side soon
Before the night's over
You will rest by my side soon
Before the night's over

You will be by my side soon
Before the night's over
You will rest by my side soon
Before the night's over

You will be by my side soon
Before the night's over
You will rest by my side soon
Before the night's over
