You look so fine, you move so hot
Each time you touch me it's just the right spot
Can't stop this feeling, won't try to pretend
I'm a sucker for passion, don't want it to end

Bridge

I can feel you burning up inside of me
I need you bad, can't you see
Each time you touch, you turn me inside out
Don't stop me now, don't let go
Everytime we meet you got to...

Chorus:

Love me, over and over
Move me, over and over
Thrill me, over and over
I need more
Oh touch me, over and over
Tell me, over and over
Hold me, over and over
I need more of you

Make me feel good, make it real nice
Don't ever stop, I want you all night
You make me crazy, but what do I care
I'm a sucker for passion, I want you right here

Bridge

I can feel you burning up inside of me
I need you bad, can't you see
Each time you touch my body starts to shake
Don't stop me now, don't let go
Everytime your near you got to...

Chorus

Love me, over and over
Move me, over and over
Thrill me, over and over
I need more
Oh touch me, over and over
Tell me, over and over
Hold me, over and over

I need more of you

Over and over
Over and over
Over and over
I need more
Over and over
Over and over
Over and over
I need more of you

Bridge

I can feel you burning up inside of me
I need you bad, can't you see
Each time you touch you turn me inside out
Don't stop me now, don't let go
Everytime we meet you got to...

Chorus

Love me, over and over
Move me, over and over
Thrill me, over and over
I need more
Oh touch me, over and over
Tell me, over and over
Hold me, over and over
I need more of you

Over and over
Over and over
Over and over
I need more
Over and over
Over and over
Over and over
I need more of you

Love me, over and over
Move me, over and over
Are you thrilling me? over and over
I need more
Oh touch me, over and over
Tell me, over and over
Hold me, over and over
I need more of you
