I can't help the way things are
I can't change the course you sets
am I understanding and catches me pretending
we are nowhere now
I feel something

we know nothing
let's turn the ship around.

And I'm so cold, been somebody..
and it's just spring cutting my face
you don't be afraid like the phoenix to the flames
will rise again.

I can't help the way things are
I can't change the course you sets
am I understanding and catches me pretending
we are nowhere now
I feel something
we know nothing
this ship is sinking now

(2 x)
And time so goes, be somebody foes
and if you spring cutting my face
you don't be afraid like the phoenix to the flames
will rise again.

And I'm so cold
And I'm so cold.
Phoenix to the flames
will rise again.
