Tribal war can't solve the problem
Tribal war can't solve it at all

Just the other day I forward down a river side
Nuh fi go check Granny a scrub some clothes
As she smoke up her herb in her little chalk pipe
She say "Chah, not even the soap nah sudd again"

The other day I saw a ladies war
they were planning to march up to such house
they said they're not getting any justice in the kitchen
so they plan to make a big war with their big spoon
I said ladies tell me where are you going
they said I'm going to stand up and fight for my rights

Another time I saw a youth man
with an M-16 just lying on his back
I said youth man tell me where are you going
he said "I'm going to stand up and fight for my rights"

We should live in love
war can't do a thing
The arms of gun is helpless
fathers against son
countries against countries
what we need is love
