Consequenses waiting for you  
Can you feel it up inside  
You show how much your father's part of you  
Thinking it makes no sense  
But would it really make you turn away  
Would it really change your life  
Heeeeeeeey  
Hey hey... There's a world outside of you  
Hey hey... There's a world outside of you  
Feelings locked inside this corridor  
Could they make you change your mind  
Feeling hope can seem so far away  
Thinking... It's good to find  
Would you really let this go to waste  
Would it really change you life  
Heeeeeeeey  
Hey hey... There's a world outside of you  
Hey hey... There's a world outside of you  
But there's a world outside of you  
So come on... You wanna feel it all inside  
So come on... You want it all...  
Your gravity pulls you so far away  
Thinking... How long will this last  
Nothing you take makes you feel all the best  
It's too much... Not enough... It's OK...  
You break out of this age  
Hey hey... There's a world outside of you  
Hey hey... There's a world outside of you  
Well there's a world outside of you  
Hey hey... There's a world outside of you  
Hey hey hey... There's a world outside of you  
Hey hey... There's a world outside of you  
Hey hey hey...
