Clean up, sister
You're blowing smoke up your mind
When all she sees is winter falling
She's by herself, no one know her name

Even in the mean time
She calls herself a madness

And you see her
And it's sunny outside
And she makes no effort
Oh, she's paranoid

Wake up, sister
You're half asleep in your eyes
When all she needs is a little help from
She's checking out California rays

And even in the mean time
She calls herself a madness

Can you see her?
And it's sunny outside
And she makes no effort
Oh, she's paranoid

She's cold
Her conversation's dull
Her mind's a mess
I guess I have a chance

Goodbye, sister
I'll see you sometime around
When all she knows
Is waving out goodbye

Can you see her?
And it's sunny outside
And she makes no effort
Oh, she's paranoid

The final thought

I had was of
The one I saw
Walk out the door
