COME ON AND SING

WRITER MEL TILLIS

Come on and sing girl sing boy sing a happy song
Come on and sing girl sing boy this old world may not
last long
Most everybody's doing too much fighting and there's
not enough singing going on
How many people have you ever seen fight while they
were singing a song
Most everybody's mistreating one another just fight a
personal game
But that wouldn't happen to the sisters and the brothers
When they hold back their heads and sing
Most everybody's doing too much talking talking it and
just get mad
So if all that talking's gonna make you unhappy why
don't just sing and be glad
