(Bob DiPiero/Jim Photoglo)

I never knew how good a love could be  
All I'd ever known was make believe  
So many times I played the fool  
Baby, till I met you

Now everything has fallen in place  
You can tell by the smile on my face  
For every lonely tear that I've cried  
I'm that much satisfied

We've got a fine, fine, very fine love  
We've got a fine, fine, very fine love  
You know it when you find one, shining like a diamond  
It's so fine, fine, very fine love

You are more precious to me every day  
Life is better now in every way  
You don't have to lay the world at my feet  
You have made my world complete

We've got a fine, fine, very fine love  
We've got a fine, fine, very fine love  
You know it when you find one, shining like a diamond  
It's so fine, fine, very fine love

I've got no apprehensions  
You've got the best intentions  
We've got a, we've got a ....  
Fine, fine, very fine love

We've got a fine, fine, very fine love  
We've got a fine, fine, very fine love  
You know it when you find one, shining like a diamond  
It's so fine, fine, very fine love
