RAP:

It's funny when the night ends and the day begins to
break

And you realize that your whole life has been a fake

It's funny when the men you wanted were never the
men you got

Cause truth is a word you often mentioned but didn't
use a lot

After twenty odd years

You should think about your fire

You should think about your fears

CHORUS:

And get serious with your life

Serious with your dreams

And don't fake

Don't fake

Get serious with your lies

Get serious with your world

Don't fake

Don't fake

Get serious

And get serious with your life

Serious with your dreams

And don't fake

Don't fake

Get serious with your lies

Get serious with your world

Don't fake

Don't fake

Get serious

RAP:

It's funny when everything starts with the losing of hair

It can lead you into thinking or it can drive you to
despair

After twenty odd years

You should think about your fire

You should think about your fears

CHORUS:

And get serious with your life

Serious with your dreams

And don't fake

Don't fake

Get serious with your lies
Get serious with your world
Don't fake
Don't fake
Get serious
And get serious with your life
Serious with your dreams
And don't fake
Don't fake
Get serious with your lies
Get serious with your world
Don't fake
Don't fake
Get serious
RAP:
I used to think that the world was mine
But that was only for a short time
CHORUS:
And get serious with your life
Serious with your dreams
And don't fake
Don't fake
Get serious with your lies
Get serious with your world
Don't fake
Don't fake
Get serious
And get serious with your life
Serious with your dreams
And don't fake
Don't fake
Get serious with your lies
Get serious with your world
Don't fake
Don't fake
Get serious
