Text: Frank BÃ¶low

Music: Frank BÃ¶low

how many days, how many nights

I waited so long until they switched on the lights

I'm going out

they're screaming for me

now I am right where I wanna be

I'm so excited just to show

you everything I have to show - oh baby

and when the crowd is getting high

I feel like I could touch the sky - oh baby

Chorus:

this is my time

this is my time

this is what I've been waiting for

this is my time

this is the place

it's my time

this is my time

this is my time

this is the key to unlock the door

this is my time

this is the place

it's my time

I will be queen, you will be king

they're throwing us kisses

when we start to sing

I wanna rule the world just for one day

now you'll listen to the things I gotta say

I won't be good I'll be the best

and I am gonna beat the rest - oh baby

and I want all of you to know

it's what I do and where I go - oh baby

Chorus

Chorus
