

After Forever "Silence From Afar"

When the fate leaves you behind
And drags me off to an unknown destination
Shall my tears shape a sea
On which your boat has to reach the area

When the storm is most violent
And the horizon seems to be far away
You will find strength to go on
And conquer the misery that wants to
Bring you down, down, down, down

When silence from afar is close at hand
Our harmony becomes as elusive as time

Viribus exhaustus sentio meum finem
Meam amicam viduam relinquens
Viribus exhaustus sentio meum finem
Meam amicam viduam relinquens

Oh, oh, oh

Viribus exhaustus sentio meum finem
Meam amicam viduam relinquens

When silence from afar is close at hand
Our harmony becomes as elusive as time
