

After Forever "Transitory"

Life at its best
You are doing fine
But your pride is (...)
As it breaks
Suddenly clear
Beautiful, but transitory

What
We won't break easy
We won't give in
To an unbearable pain
We'll pull through
We won't crack
Will endurance survive?

Oh, transitory
Pain is as life itself
Evanescent as it fades

Oh, Transitory

Life, all you've got
All was swept away
Now you see
What there is to miss
Silently (...) than you thought
As you know
It's transitory

Cause we won't break
Survival is all we've got
And our unbearable greed
We'll hold on
And won't crack
And we'll value our life

Oh, transitory
Pain is as life itself
Evanescent as it face
