I was staring at the people
Lost and terrified
Turned and saw you smiling
My heart was terrorized
Lust among the millions
Another suicide

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it

The pain we share
While they just talk about it
While they just talk about it

A hand reached out to touch me
A letter hit the pile
I felt my life revolving
Like fingers in a dial
And I stopped believing
But only for a while

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it

The pain we share
While they just talk about it
While they just talk about it

Don't wanna talk about it
Don't wanna talk about it

Don't give it up
Don't count on their loving
Don't give it up, don't try
Don't give it up
Don't count on their loving
Don't give it up, don't try

Don't wanna talk about it
Don't wanna talk about it

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it

The pain we share
While they just talk about it
While they just talk about it

I was staring at the people
Lost and terrified
Turned and saw you crying
A victim of your pride
But you are no civilian
So open up your eyes

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it

The pain we share
While they just talk about it
While they just talk about it

Love was there
Don't wanna talk about it
Don't wanna talk about it

The pain we share
While they just talk about it
While they just talk about it

Love
