She says hello in reply to hello  
To me, she looks a like a full moon of 14th day  
With wishing good morning, she took the heart  
The one who is like a thin kite took the heart  
With a sweet smile she won my heart  
She left nothing. She snatched everything  
There is dizziness from the bottle (bottle of alcohol)  
with out drinking  
She made me a wanderer  
With wishing good morning, she took the heart  
The one who is like a thin kite took the heart  
Her immature youth is striking hard  
It looks like she is roaming because she is hungry for  
love  
Friends, she looked through eye contact  
She asked me for love  
With wishing good morning, she took the heart  
The one who is like a thin kite took the heart  
She looked at us so innocently  
But now we worry what to do all the time  
He used to sit quietly and write songs  
He used to sit quietly and sing songs  
she destroyed his concentrations  
With wishing good morning, she took the heart  
The one who is like a thin kite took the heart
