Let me tell you about a crazy day
The captain told me I be gone away
He looked at me and he pointed to the stars
He said look son I'm sending you too mars

So I called up my mum to break the news
I said look mum I won't be home for tea for a week or
two
My friends they came to see me to say goodbye
So I took them up to see the spaceship
Freedom I would fly

When I took them to the ship
The captain called be back to base
And as I walked away from them
I saw them blast of into space

Oh no it's all gone wrong
My ship flew away and my buddies are gone
Never thought I see the day
Now they are up there
Flying through outer space

So yeah just another grey day
When your ship has gone
And your friends are away
Now they have escape to play
And they are up there
Flying through outer space

Tell me what she thinks beyond the stars
Are there people there like you and me
And little spaceship cars
My friend are there and they have lost their way
They are fighting with some aliens
All through the milky way

Oh captain can you help us quick
The ship has gone out of control
Broken switches we can't fix
And now they found it they came home
We came home

Oh no it's all gone wrong
My ship flew away and my buddies are gone
Never thought I see the day
Now they are up there
Flying through outer space

So yeah just another grey day
When your ship has gone
And your friends are away
Now they have a escape to play
And they are up there
Flying through outer space

No no no

Wouldn't you like to go there
Wouldn't like to fly through outer space
Na na na
Na na na na

Wouldn't you like to go there
Wouldn't like to fly through outer space
Na na na
Na na na na

Wouldn't you like to go there
Wouldn't like to fly through outer space
Na na na
Na na na na

Wouldn't you like to go there
Wouldn't like to fly through outer space
Na na na
Na na na na
