(performed with Pido Lalimarmo)

rain falls
dark clouds are racing up above
i gaze in solitude
lookin from misty glass windows
coz then it used to be the two of us

this empty room
filled my thoughts with memories of you
i turned and looked around
oh but found no sight of you
i guess it'll never be as true
no, no

starlight, all i need is you tonight
oh, starbright, grant my wish tonight
i'm begging you starlight, all i need is you tonight
oh starbright, get rid of this spell tonight

rain falls
dark clouds keep racing up above
yet still in solitude
oh, longing for you
i guess my heart will always be with you

my heart will always be with you

starlight, all i need is you tonight
oh, starbright, grant my wish tonight
well i'm begging you starlight, all i need is you tonight
oh starbright, gotta get rid of this spell tonight
