I can't control everything  
And i can't forget just what i've seen  
These memories take me away  
To a better place than i am today (that i am today)

I devise my own demise  
Here's to life-the life i'm losing  
I devise my own demise  
Here's to life-the life i'm losing

It is time to say hello goodbye (hello goodbye)  
To fade away, fade away alone (motherfucking  
goodbye!)  
I just want you to take, take me back home (thake me  
back home)  
To a better place that i've never known(that i never  
know)

I devise my own demise  
Here's to life-the life i'm losing  
I devise my own demise  
Here's to life-the life i'm losing

I can't control everything  
And i can't forget just what i've seen  
These memories take me away  
To a better place than i am today (than i am today)

I devise my own demise  
Here's to life-the life i'm losing  
I devise my own demise  
Here's to life-the life i'm losing

This life i am losing  
This life i am losing  
This life i am losing  
This life i am losing

I devise my...own demise
