Let's go

This is a wake up call to one, to all
The opposition it will take the fall

Are you sick of just getting by?
Are you tired of fucking crying?
Are you looking for a better life?

Change or die
We're looking for the answers of our life tonight
You gotta change or die
The answer is for you to do what's right tonight

Are you corrupted by the status quo?
The repetition, it kills us all
Is the rat race dragging you down?
Are you stuck in that dead end job?

Are you looking for the way out?

Change or die
We're looking for the answers of our life tonight
You gotta change or die
The answer is for you to do what's right tonight

We won't go down, not tonight
This is our battle cry, we're ready to fight
We won't go down, not tonight
This is our battle cry, we're ready to fight

Change or die
We're looking for the answers of our life tonight
You gotta change or die
The answer is for you to do what's right tonight
Change or die, change or die
