### "iSEDuF\*\*nDie"

I'm slowly .. breaking .. slowly  
I'm breaking down, feeling weak  
I'm thinkin' about the higher ground that I wish to seek  
For the safeness, for the realness  
I'll break it down simple for my people to hear this  
Cause my shit is for realness, for my people to hear  
this

Slowly .. I'm breaking down, feeling weak  
I'm thinkin' about the higher ground that I wish to seek  
For the safeness, for the realness  
I'll break it down simple for my people to hear this  
Cause my shit is for realness, for my people

Six years of age when I first got my rage  
My father broke out, and then I turned a new page of  
my life  
It changed, then it was crazy  
Thanks to my mom cause she stuck by to raise me  
Since I was a baby, she stuck by to raise me  
Since I was a baby, there is no sound  
Coming up from the ground, there is no sound  
Coming up from the ground

No way, no way [x2]  
No ..

No way, no way  
Not this time, no ..

Buried deep inside, there is no evidence  
Feelings that I hide, sometimes are too intense  
Silent, in the dark I think I'm nutty  
Vicious swords of emotion slash, and leave me bloody

For my people to hear this [x3]

I said you f\*cking die [x3]
