Human behavior, peculiar it seems
Some thrive on hate and some love and dream
Everyone's got a purpose and wants to be loved
I think I found my purpose, I think I found love

Hidden inside myself, hidden inside, inside myself
Tragedy strikes when you least expect it
Tragedy strikes when you least expect it

Hate and destruction crashed down on our world
The stars and the stripes, the boys and the girls
It's sad it took war just to bring us together
I believe in love, I believe in forever

Hidden inside ourselves, hidden inside, inside ourself
Tragedy strikes when you least expect it
Tragedy strikes when you least expect it

You better run, you better run
For your life, for your life
Shed a tear, shed a tear, live in fear

You better run, you better run
For your life, for your life
Shed a tear, shed a tear, live in fear

You better run, you better run
For your life, for your life
Shed a tear, shed a tear, live in fear

Love is tragedy
Love is tragedy

Tragedy strikes when you least expect it
Tragedy strikes when you least expect it

Tragedy day
Tragedy day
Tragedy day
