lately, if you havent noticed a crime wave
coming through the city, i'll bet
you lock all your windows and doors
lately, if you havent noticed a crime wave
you did it, you did it, didn't you?

home is right out your window
home is right out your window

lately, if you havent noticed a crime wave
burning up the tension between us
ill bet you lock all your doors
lately, if you havent noticed a crime wave
you did it, you did it, didn't you?

home is right out your window
home is right out your window
maybe you've been a bad little boy
maybe youve been a bad little boy
home is right out your window
home is right out your window
