Papermoon

"Times Are Changing"

I don't wanna talk about the way we used to be
You know these days are gone
I don't wanna talk about the sins you did to me
Who's right and who is wrong

Just want to tell you it's alright the way it is
It will never be the same
The way we talk the way we touch the way we kiss
The way we play our game

Don't try to change the rules
If it was meant to be we'd stay together
The sun will rise again and chase all your fears
All your fears

I don't wanna know the reasons you had to go
Someday we'll meet again
I don't wanna miss you when the day is done you know
You'll always be a friend

Just want to know if it's alright the way it is
Will it ever be the same
The way we talk the way we touch the way we kiss
The way we play our game

Don't try to change the rules ...
"

I don't talk about the way ...

Come see how the times are changing
The world keeps turning round

Just want to know if it's alright the way it is
