Do you wanna come over and drink some more cheer?
Now the show is over and the drummer is here
And I know that your girlfriend is home on her own
But you're not in the country so nobody knows

As it happens, I live close, I live down the road
It could work out quite nicely if you've got your coat
We can lie in the bedroom, we can sit on the porch
But it's awfully cold out, so do keep me warm

I could put on a film and the salty popcorn
And a big cozy jumper I know that you've worn
And we've had nine or ten now so don't close your eyes
But I'm not sure we'll sleep great with a whole stream
of lies
