"Lemon Lime Pickle"

Go suck a lemon, I hope that it's sweet
Put jam on your porridge to start the new week
Infatuation will carry your feet
To start the new week

Go lit the lighter to light up your street
Take both of your hands to put socks on your feet
Elimination will leave you a treat
To start the new week

Go suck a lemon, I hope that it's sweet
Put jam on your porridge to start the new week
Infatuation will carry your feet
To start the new week

Lemon, lime, pickle
Oh, what will you eat
To start the new week?
