Hey yâ'all pal, what up homie?
I got some baddest females in the world out here
Iâ'm thinking bout stayin
Find me a condom somewhere

Girl I noticed,
Every little thing you say make me nervous
But Iâ'm not hopeless
Iâ'm really trying to tone it down
But it keeps coming back

I noticed
Every little thing you say make me nervous
But Iâ'm not hopeless
Baby wonâ't you give me a sign?
Am I on the right track?

But I really didnâ't wanna come across as a lonely man
When I told you that I loved you on our first date.
But I really didnâ't wanna come across as a lonely man
When I told you that I loved you on our first date.

But I really donâ't wanna go home,
And I canâ't get you out of my sight
â'Cause your looks and your body got me feeling kind
of dizzy
SO why donâ't we get down tonight?

Now itâ's a little past three oâ'clock
I wanna throw cobbles at your bedroom window
Wish I could change your mind
But I donâ't know how.

Why itâ's no little past four oâ'clock?
And Iâ'm sinking in this man made limbo
Looking down at my watch
Wasting time.

Girl I know this
Got body you got is hot Iâ'm focused
I usually turn my girl to blow this

Then disappear in the air like hocus-pocus
Shit, but you that deal for real on the real on the real
Nobody's down, and... like I found me
... all about me,
And when I'm... booty like a mountain
Twitter, InstaGram, send the gram my follow you,
Right higher you, you know how I do,
But I wanna get the crooking like a barbecue,
I want some knowledge, some knowledge baby I'm
smart to you
Real smart get a car to, but like my car I'm starting
you,
Ain't hard to do pull you, I get them pings,
And I'm from hollum, I love New York so get the
chicks.

Girl I noticed,
Every little thing you say make me nervous
But I'm not hopeless
I'm really trying to tone it down
But it keeps coming back

I noticed
Every little thing you say make me nervous
But I'm not hopeless
Baby won't you give me a sign?
Am I on the right track?

But I really didn't wanna come across as a lonely man
When I told you that I loved you on our first date.
But I really didn't wanna come across as a lonely man
When I told you that I loved you on our first date.

But I really don't wanna go home,
And I can't get you out of my sight
'Cause your looks and your body got me feeling kind
of dizzy
SO why don't we get down tonight?
