When you start to speak is when you start to shake
When you side step the questions do you break a leg
When the time has passed on another day
Did you fall that far just to pave the way?
And all of the things that you said to me
And all of the ways that you make believe
That the life that we shared hasn't come unglued in
front of us

Stop making a mess stop making it worse
Stop living a lie just to kill a curse
And I will be the one your heart mistaken let it go

And I don't know what kind of shape you're in
Or who will tell you what you want to hear
Not me, I'll live, but you'll know the hurt
When the picture in my hand says, it's over now can
you feel it to?
When what you say isn't what you do
The time hasn't come yet to say goodbye not for us

Stop making a mess stop making it worse
Stop living a lie just to kill a curse

And I will be the one your heart mistaken let it go

Don't stop to breathe if you're gonna leave just leave
I believe in what I see if you're gonna leave just leave
Just leave and I will bury you, I will bury you
We both know how it feels and the fallout
Stop making a fight stop making it right
And I will be the one your heart forgotten

Stop making a mess stop making it worse
Stop living a lie just to kill a curse
And I will be the one your heart mistaken let it go

Stop making a mess stop making it worse
Stop living a lie just to kill a curse
And I will be the one your heart mistaken let it go

Don't stop to breathe

I will bury you there's a place in my heart
Where we could be better off alone
I will bury, you let it go.
