She let it go  
The hard feelings and the hardships  
Sail away for good  
Wave goodbye and wave hello

I'm standing at the shore  
Offering you more  
Than you could ever want  
And I'm just as nervous as you are  
I'm just a piece of glass  
I'm just a subtle memory  
That hasn't fully passed  
And I'm strong but I'm weak  
I'm hoping you will see  
That sometimes you just have to fall apart  
To be complete

We wasted the day  
We'll never get it back  
But let's be honest  
Start again  
Hello it's me  
It's so nice to meet you  
Feels like the first time

He let the world go  
He left the whole world to see  
the sweet part of him  
Bite your tongue and bite your nails  
I'm just as nervous as you are  
To be alone  
To be in loving arms again  
But me I'm never gonna let go  
If I hold you one more time  
you let me know?

We wasted the day  
We'll never get it back  
But let's be honest  
Start again  
Hello it's me

It's so nice to meet you  
Feels like the first time

When you said take them off  
Do you remember that day  
I said a lot  
But let's be honest  
No one looks as good as you in that  
Remind me of the day  
So I don't wreck the night  
My love is all I can defend  
There's not much of a defense  
We are walking hand in hand  
And I won't care if you're always,  
Always there

We wasted the day  
We'll never get back  
But let's be honest  
Start again it's me  
It's so nice to meet you  
Feels like first time

When I said  
Let's be honest  
No one looks as good as you in that  
Remind me of the day  
So I don't wreck the night
