Verse 1 [JESSICA / SIAN]

I ain't like those other girls that ya dealt with
You better know the score (oh, oh)
The feeling I want you to feel you know I felt it
And now ya wanting more

My body got a lotta love if you want it
Enough to make you fall for (oh, oh)
Me in a second, bet you'll never wanna leave
Never wanna walk out my door

Bridge [BIANCA]

Every someone, needs that someone that
Makes them love without a care
And if you know the way I feel then
Put your hands up in the air

Chorus [ALL]

Tonight I'm sleeping with the lights on
Don't leave me waiting here too long
And if your head says yes and your heart says go
(Ready!)
You better knock on my door! (door, door)
So take this chance that you're given
We are meant to be no mistaken
So if your head says yes and your heart says go
(Ready!)
You better knock on my door

Verse 2 [JESSICA/SIAN]

And if you're coming better walk a little faster
Don't you waste my time, (i-ime)
And if you're looking for your happy ever after
I better stay on your mind, (mi-mind)

Nobody gonna do it better, give you what your looking
for
When my loving takes you higher than the ceiling
And your heart through the floor

Bridge [BIANCA]

Every someone, needs that someone that
Makes them love without a care
And if you know the way I feel then
Put your hands up in the air

Chorus [ALL]

Tonight I'm sleeping with the lights on
Don't leave me waiting here too long
And if your head says yes and your heart says go
(Ready!)
You better knock on my door! (door, door)
So take this chance that you're given
We are meant to be no mistaken
So if your head says yes and your heart says go
(Ready!)
You better knock on my door

Knock - na - na - knock - on my door
Na- na- na- na knock on my door, oh oh

Middle Eight [LAUREN/JESSICA]

Sleeping with the lights on (x 2)
Oh baby I'm lit up
I'm ready when you're ready for whenever you deliver
Get the picture
You don't want to miss no chance is bigger
Don't you leave me waiting

Chorus [ALL]

Tonight I'm sleeping with the lights on
Don't leave me waiting here too long
And if your head says yes and your heart says go
(Ready!)
You better knock on my door! (door, door)
So take this chance that you're given
We are meant to be no mistaken
So if your head says yes and your heart says go
(Ready!)
You better knock on my door

Knock - na - na - knock - on my door
Na- na- na- na knock on my door, oh oh
