Must be my perfume, my perfume , my perfume , my  
perfume

That's what they like,

My perfume, my perfume, my perfume.

That's what they like.

So, what makeup should I choose?

how high should I wear my shoes,

What is it?

They'll be running around the corner when we come

Like flowers to the sun,

They wanna be the one like,

Here we go, here we go

Here we go, here we go.

Cause we're bringing all the boys

And they're dropping all their toys

Yes, they're dropping all their toys

And we're bringing all the noise

Must be my perfume, my perfume, my perfume

That's what they like

My perfume, my perfume, my perfume

That's what they like

So they wanna get it, get it, they wanna get it, get it

So come and get it, get it, if you wanna get it, get it

They wanna get it, get it, they wanna get it, get it

So come and get it, get it, if you wanna get it, get it

Why you followin' my dress,

When my fragrance having scent?

You must be dizzy,

Cos' you're starting to drive your system round the  
bend,

Your defence is weakenin', and you start running  
running.

Here we go, here we go

Here we go, here we go

Cause we're bringing all the boys

And they're dropping all their toys  
Yes, they're dropping all their toys

And we're bringing all the noise

Must be my perfume, my perfume, my perfume  
That's what they like  
My perfume, my perfume, my perfume  
That's what they like

So they wanna get it, get it, they wanna get it, get it  
So come and get it, get it, if you wanna get it, get it  
They wanna get it, get it, they wanna get it, get it  
So come and get it, get it, if you wanna get it, get it

Imagine being addicted to something that you want but  
can't have,  
You need but can't have.  
Don't wanna lead you on but you keep chasing,  
I keep looking back, yes I keep looking back.

Must be my perfume, my perfume, my perfume  
That's what they like  
My perfume, my perfume, my perfume  
That's what they like

Cause we're bringing all the boys  
And they're dropping all their toys  
Yes, they're dropping all their toys  
And we're bringing all the noise

Must be my perfume, my perfume, my perfume  
That's what they like  
My perfume, my perfume, my perfume  
That's what they like

So they wanna get it, get it, they wanna get it, get it  
So come and get it, get it, if you wanna get it, get it  
They wanna get it, get it, they wanna get it, get it  
So come and get it, get it, if you wanna get it, get it  
They wanna get it, get it, they wanna get it, get it  
So come and get it, get it, if you wanna get it, get it  
They wanna get it, get it, they wanna get it, get it  
So come and get it, get it, if you wanna get it, get it  
They wanna get it, get it, da daw
