Verse 1 [JESSICA / SIAN]

Every day I have visions, and I get a feeling in me
I wanna be where he's been, so I get everything he
Wants from a girl, but I'm not giving too much
I'm ready, come get me, not too quick, not heavy

My heart is racing should I give the green the light
Cos getting a little closer gives me butterflies
And I know it's more than friends, cause he makes me
go crazy
We're into this, let's do it, what is this

Bridge [BIANCA]

Can we call it love, call it love, call it love, call it love (x
2)

[ALL]

I got something here for ya, come get it if you wanna
I can't wait any longer
Tick tick tick tick tick tick tick

Chorus [ALL]

So when we say goodbye to the next day (you got me
ticking on it)
Until the next time when he holds me (I'll be ticking on
it)
I'll be waiting by the phone til it rings (I'll be ticking on
it)

I got something here for ya, come get it if you wanna

Verse 2 [BIANCA]

Close your eyes, open now, can you feel it inside
When we touch each other, its so hard to leave you out
Missing you baby, when you call me your lady
It must be more than lust so what

Bridge [BIANCA]

Can we call it love, call it love, call it love, call it love (x

I got something here for ya, come get it if you wanna
I cant wait any longer
