We heard the sound of this town falling down.
She said, Look for home, you won't find it anymore
There's no way out if you're looking for more.
She said, The only way to find it is to break from this
town

Race to the car as your mind falls apart
This is only the start of our new life together.
The headlights shine marking miles away
Cross the country a taste of a new life together.

Whoa, We're breaking out of town tonight.
Whoa, And I will be by your side.

Whoa, We're breaking out of town tonight.
Whoa, And I will be by your side.

Your lack of emotion is so very evident
Like the taste of your lips as you came off of his.
So tell me something you know I will believe.
Like how you miss me or how you swore you'd never
leave.

Race to the car as your mind falls apart
This is only the start of our new life together.
The headlights shine marking miles away
Cross the country a taste of a new life together.

Whoa, We're breaking out of town tonight.
Whoa, And I will be by your side.

Whoa, We're breaking out of town tonight.
Whoa, And I will be by your side.

We lost the love that it takes
These were all my mistakes
We can live like before

We lost the love that it takes
These were all my mistakes
We can't live like this anymore.

Whoa, Let's break this town
Whoa, Let's break this
Whoa, Let's break this town
Whoa, Let's break this

Race to the car as your mind falls apart
This is only the start of our new life together.
The headlights shine marking miles away
Cross the country a taste of a new life, a new life
together.

Whoa, We're breaking out of town tonight.
Whoa, And I will be by your side.

Whoa, We're breaking out of town tonight.
Whoa, And I will be by your side
