We went on my roof last night  
My roof, I got high with you  
And we talked about things in life  
The things we tried to do  
And you showed me pictures  
And I picked my favourite you drew

And the traffic covered the love songs you made...

You took me in a room I never could have seen  
And it ended so quickly, you thought it was a dream

Now I can't get you out of my head  
I can't get you out of my head

'Cause you...

You took me in a room I never could have seen

I went on my roof last night  
My roof, to get high with you  
Looking up at those smoke rings  
and city lights, nothing better to do  
And I played you songs I wrote  
You picked your favourite too

Like this...

We went on my roof

You took me in a room I never could have seen  
And it ended so quickly you thought it was a dream

Now I can't get you out of my head  
I can't get you out of my head  
I can't get you, how could I get you  
I can't get you out of my head  
So get out of my head

I never told you that your lips were just enough  
So get your stuff, get your stuff

So get out of my head

I never told you that one night could be enough  
So get your stuff, get your stuff  
Get out of my head

We went on my roof  
And the traffic covered the love songs you made

You took me in a room I never could have seen  
And it ended so quickly you thought it was a dream

Now I can't get you out of my head  
I can't get you out of my head  
I can't get you, no, I can't get you  
I can't get you out of my...head

We went on my roof last night  
My roof, I got high with you
