Trapped in a can to suffocate and die  
The pressure's gone eyes are open wide

I will swear allegiance  
To whatever will appear  
Serve every deity  
Just get me out of here...

Space burial, unholy ritual  
Human ashes build the stars  
Disconnected, doomed to die  
Solar winds forever in our hearths

Dressed in white heading for the black  
The revived body's getting numb again

Caught up in nightmare  
I should not wish to end  
Force to face reality  
Ain't no saviour to be send

Space burial, unholy ritual  
Human ashes build the stars  
Disconnected, doomed to die  
Solar winds forever in our hearths

[Solo]

Space burial, unholy ritual  
Human ashes build the stars  
Disconnected, doomed to die  
Solar winds forever in our hearths [x2]
