Now it's time to dance
And time to pray
Move close to me
And hear what I say
It's torture time
My little child
So follow me
Into the night
(bridge)
Let me drag you down
Let me kiss your neck
Please don't be afraid
I'll show you things you won't forget
(chorus)
No it's too late
I bite I suck I emptied you
There's no escape
You have to follow me in to
Into the empire of the vampire
Where dreams turn into fright
Into a land called Transylvania
Where life begins at night (begins at night)
(Solo)
A flood of blood
Is rushing over
The dead are on
Their way to nowhere
You try to hide
You try to run
But this nightmare
Now has just begun!
