

## Paraluman "For U"

Kiss me here don't be deceived  
Every second will never leave  
Seeing times, falling times  
Everything I do is still for you

Wanna be with you, yeah  
Being here with you  
Wanna be with you, yeah  
Being here with you

It was really plain to see  
Everything can never be  
Though sometimes it seems I'm fine  
Everything I do is still for you

Wanna be with you, yeah  
Being here with you  
Wanna be with you, yeah  
Being here with you

It took sometime to see we're through  
There's nothing left for me to do  
Crying times, falling times  
Everything I do is STILL for you

Wanna be with you, yeah  
Being here with you  
Wanna be with you, yeah  
Being here with you  
Wanna be with you, yeah  
Being here with you
