m dancing with your darkened soul  
Must be murder and love at the same time  
I've been caged by the dead of night  
I'm smelling blood and awake for the second time

The deepest glance upon your face  
I'm spellbound by your kiss  
Was never touched like this before  
Was never kissed like this before  
My blood runs faster into the cold  
I'm nearly dead but I will rise again  
The deepest glance upon your face  
I'm spellbound by your kiss

Get faster  
Reach devil
