Now when you say you wanna slow down,  
Does it mean you wanna slow dance?  
Maybe you just want a little extra time to focus  
On our romance,  
What do you mean I got it backwards?  
You know we're gonna be forever  
Why are you telling me goodbye,  
Aren't you gonna stay the night

Are we really over now,  
Maybe I can change your mind,  
Soon as you walk out my door,  
I'm gonna call a hundred times...

Now I walk under a pink sky,  
Lovers float along and pass me by  
I pour my heart out to your voice mail,  
Let you know I caught a bus  
To your side of town

And now I'm standing at your doorstep,  
With Los Angeles behind me  
If you don't answer I'll just use  
The key that I copied  
Cause I really need to see you

If you're not here when I break in,  
I'm gonna go to your closet,  
Just so I can smell your skin  
As the chemicals swim,  
I know I'll never love again,  
I swear I'll never love again

Baby, are we over now,  
Maybe I can change your mind,  
As soon as you walk out my door,  
I'm gonna call a hundred times...

I'm not one of those,  
Crazy girls  
I'm not one of those,

Crazy girls  
I'm not one of those,  
Crazy girls  
I'm not one of those,  
Crazy girls

Hey baby, are we over now,  
Maybe I can change your mind,  
As soon as you walk out my door,  
I'm gonna call a hundred times...

Baby, are we over now,  
Maybe I can change your mind,  
As soon as you walk out my door,  
I'm gonna call a hundred times...

Now I'm one of those crazy girls,  
Now I'm one of those crazy girls,  
Now I'm one of those crazy girls,  
Now I'm one of those crazy girls
